ABSTRACT

The aim of this paper is to describe about people’s hope and fear when they are facing Doomsday. This paper uses reader response theory, and the description of hope and fear. Pie charts describing the respondents are also given in the analysis. Fifteen are from English Department of semester eight and fifteen from other departments of semester eight. The discovery finds that most people are fear when facing Doomsday. Furthermore, people also hope Doomsday will not happen. The respondents also hope that all mankind take care of the earth.

Keywords: hope, fear, reader response, 2012
