ABSTRACT

This thesis focuses on the study of female characters representation and gender roles in *Mr. & Mrs. Smith* movie by Doug Liman in 2005. The analysis uses Liberal Feminism theory, Helene Cixous’ patriarchal binary thought, and gender analysis which consists of gender role, stereotype, and equality. The study aims to describe how the feminism values are represented through the female character, to see the gender roles between the main characters, John Smith and Jane Smith, and help the readers to understand more about the gender issues in society. The study uses library research method where books, journals, articles, and other reliable resources are used as references. In the end, it can be concluded that the female character has the feminism values which lead to the gender equality, compromise between the main characters, and the shift of gender roles.
