ABSTRACT

The goal of the paper were: to find out the role and impact of working woman; to find out the role and impact of domestic goddess; and to find out the balance between the two responsibility as working woman and domestic goddess. The writer used library research to find theories in analyzing the problem of the research. Analysis were done by using Feminism, Domestic Goddess, Modern Woman, Parent Education and Opportunity Cost theories. It can be concluded that the role of working woman is working hard for the job and the impact is her social and family relationship gone bad; the role and impact of being domestic goddess is do the housework and the impact is can take care her own self; the balance of the two responsibility is before do the office work she has to finish the housework.
